Subject: Boycott FOX News Advertisers

FOX News has always been the propaganda arm of the Republican Party, willing to twist facts and even lie to promote the Republican agenda.

But the election of President Obama in 2008 pushed FOX News into outright hate-mongering and incitement of violence, which is intolerable in a democracy.

Here are some examples of intolerable hate speech and incitement to violence:

[6/30/09](#) Glenn Beck agreed with guest who urged bin Laden to attack U.S. with nuclear weapons.

[7/25/09](#) Neil Cavuto and guest said health care reform will impose universal euthanasia like "Soylent Green."

[7/28/09](#) Glenn Beck said "The President has exposed himself as a guy .. who has a deep-seated hatred for white people ... or the white culture... This man is a racist."

[8/6/09](#) Glenn Beck "joked" about giving Speaker Pelosi a glass of wine with poison.

We join with [FoxNewsBoycott](#) and other groups in this boycott, which is already producing outstanding results.

In the first week, 11 advertisers cancelled their FOX ads: Campbell Soup, Chrysler, General Motors, Kellogg, Kraft Foods, Lawyers.com, Nestle, Pfizer, Proctor & Gamble, Progressive Insurance, and Walmart. [Read the latest update from wikoole.](#)
